BESPOKE
DESIGNS

LEVEL #1 CUSTOMISATION

BASIC EMBELLISHMENTS

This catalogue displays the entirety of our headwear collection. From this wide variety of styles, you are able to select your preferred cap and customise it through embroidering (or something similar) your choice of design onto it.

LEVEL #2 CUSTOMISATION

A LITTLE EXTRA

Our Custom Colourway Range has been devised for those of you wanting a little more than the set-standard. The range allows you to select a particular cap style from our Catalogue Range, and gives you the freedom to choose your own cap colours, use a unique woven label, and offers extra options for stickers and inner tapes.

LEVEL #3 CUSTOMISATION

THE WORKS

This range takes customisation to the next level. When going the bespoke route, your brand and Uflex essentially team up and collaborate in order to design a unique cap, for your brand in particular. You make all the choices, from colour and shape, to closures, inner branding, and prints design.
